

Data Analysis Pre-Lab

In advance of the first class:

1. If you have never done error analysis, watch the Error Analysis video. See 3rd column “Useful Links” on this Experiment web page.
2. Carefully read the experiment Guide (1st column).
3. Complete the intro to python notebook
4. Do Bevington & Robinson exercises 2.15, 2.16, and 4.5. See second column “Related Material” for a link

Hand in before the beginning of class.
